COMPANY INTRODUCTION

Elite Infrastructure and Technology company driven by excellence, innovation, and a commitment to delivering high-quality solutions across various industries. With a strong foundation built on expertise and professionalism, we take pride in executing projects with precision, efficiency, and reliability. Our dedication to maintaining the highest standards ensures that every project is completed with a focus on quality, sustainability, and long-term value.

At **EIT**, we believe in fostering strong partnerships and exceeding client expectations through our customer-centric approach. Backed by a skilled workforce and advanced methodologies, we continuously adapt to industry advancements to provide cutting-edge solutions. Our unwavering commitment to integrity, professionalism, and excellence sets us apart, allowing us to build a reputation as a trusted and dependable name in the industry.

VISION

To be a leading provider of innovative and reliable solutions, setting new benchmarks in quality, efficiency, and excellence while contributing to the sustainable growth and development of the industry.

MISSION

To deliver high-quality, customer-focused solutions through advanced methodologies, skilled expertise, and a commitment to precision, ensuring long-term success and client satisfaction.

VALUES

We uphold integrity, professionalism, and innovation in everything we do. Our commitment to quality, teamwork, and continuous improvement drives us to exceed expectations and build lasting relationships with our clients and partners.

CORE VALUES

The Principles that guide
**our company strategy and
our individual actions.**

People

People are the heart of our business. We are team players focused on a collaborative solution to business challenges. We aim to attract, develop, and retain the best people treating each other with honesty and respect.

Innovation

Innovations are recognized early on, tested, and learnings are shared across our business. We encourage our people to challenge existing norms so that we ultimately deliver industry leading solutions to every challenge.

Safety And Assurance

Safety & Assurance is our foremost priority, since lives depend on it. We strive to prevent injuries and ill health of our people at all costs, and we believe that everyone must return home safely. We provide our people with the training, environment, and equipment to perform their work safely.

Integrity

Our reputation has been established over many years by consistently doing the right thing. Integrity and Character are as important as ability, which is why we build trust and act with honesty. We cultivate a culture of transparency and responsibility throughout our entire organisation.

Relationships

We depend on cordial relationships with our clients, business partners, and vendors. We ensure that we understand the people we deal with and their objectives so that we can strive towards exceeding expectations.

Financial Responsibility

EIT is cost aware and carefully manages its own, and its customers' costs. Financial risks are reviewed systematically and financial performance is being recorded in a clear and concise manner.

MESSAGE FROM CHAIRMAN

Thank you for taking opportunity to learn about the **Elite Infrastructure and Technology**. Hopefully your review of our company profile will provide a deeper understanding of our experience, organizational philosophy as a team of builders , and history as one of the kingdom's leading construction organizations . Our Success also embraces the deep belief that we are only one part of a broader team effort where outcomes are directly the result of how well aligned expectations are with those of the client .

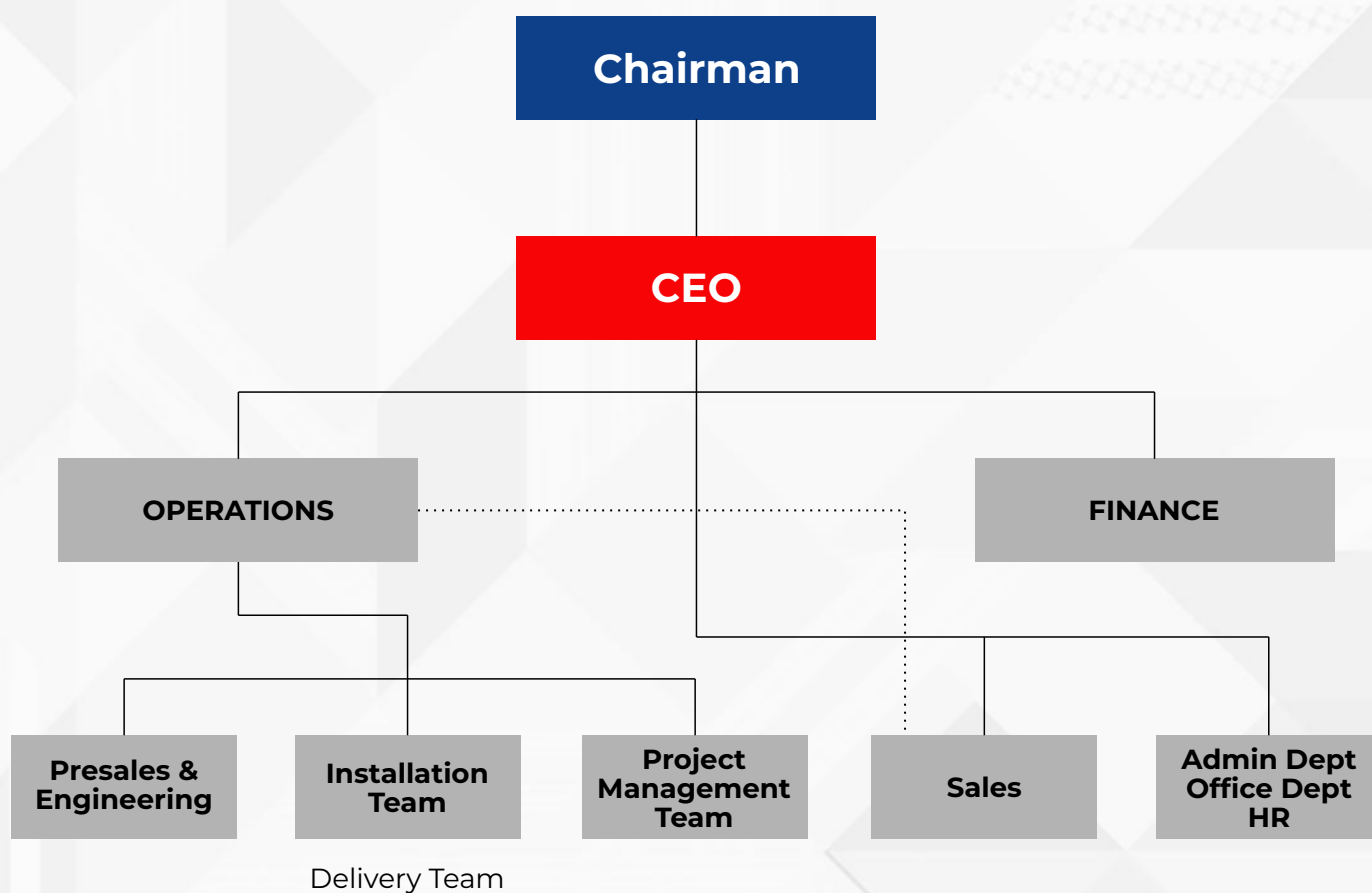

At **EIT** we place significant emphasis on assuring strong team alignment on each project we plan and build . As the early decades of the 21st century unfold the construction industry will continue to experience a confluence of change , from the manner in which forms of information are managed and shared , to new and innovative ways of teaming, project delivery and financing to continued acceleration in business opportunities and global competitive pressures.

Increasingly success will be defined in terms of greater flexibility and the advancement of organizational culture and diversity , as well as excellence in sustainability , continuous training , and project safety . We are optimistic about our times , the opportunities they will present and the position of our organization as a team poised to serve in manner where owners receive the best long term value for their investment , and **EIT** is viewed as a long term partner within the community.

Driven by the ambitions of expansion,
Diversification and consolidation

EIT is progressing with tremendous vigor.

ORGANIZATION CHART

HEALTH, SAFETY & ENVIRONMENT (HSE)

EIT is fully committed to protecting its workforce, assets, and the environment by upholding the highest standards of Health, Safety, and Environment (HSE) practices. Our Corporate HSE Policy, endorsed by the company's leadership, reinforces a culture of safety, ensuring a secure and risk-free work environment for all. Every employee is responsible for maintaining and promoting safety standards, with the HSE Policy prominently displayed across all offices and operational sites.

Our Safety Department, led by a dedicated HSE Manager under the General Manager's direction, oversees all health, safety, and environmental initiatives. Regular site assessments, risk evaluations, and collaboration with client representatives help us maintain strict compliance with industry regulations and best practices.

EIT has established a comprehensive HSE Program that aligns with local regulations and international standards. This program outlines clear roles, responsibilities, and protocols for ensuring workplace safety and operational efficiency. The HSE Representative is authorized to halt any hazardous activity, ensuring full compliance with safety procedures.

To enhance HSE awareness, **EIT** conducts continuous training programs, including safety orientation, induction, and specialized courses. Through proactive education and strict adherence to HSE policies, we cultivate a strong safety culture that protects our employees, clients, and the communities we operate in.

Supervisors Role in Accident Prevention
Defensive Driving
Work Permit System

RISK CONTROL

RISK CONTROL AND SAFE METHODS OF WORK

The assessment of risk is a process that identifies hazards and details the control measures to be adopted. The risk assessment process should start at the earliest possible stage of a project or task and continue during the works, focusing on successively smaller elements of work and work interfaces. A comprehensive range of risk assessments have been created and are available for download from www.eliteinfotechksa.com (portal). All personnel are encouraged to use these templates and upload any new or revised versions so that everyone can benefit from the collective experience.

METHOD STATEMENT

Method statements will generally be produced in conjunction with subcontractor involvement and, where practicable, from standard procedures. The precise content of a method statement will vary according to the scale and complexity of the task and the level of risk involved. However, a standard company method statement format may be used to ensure all relevant information which should be included is covered.

TRAINING

A structured health and safety training programme is to be administered by the construction director covering all of the company's employees. **EIT** is committed to ensuring that employees possess the appropriate level of competence dependent on their role in the organization. This will be achieved through a combination of appropriate recruitment, training, selection and development of individuals, backed by advisory support. Managers at all levels are responsible for assessing and meeting the training needs of their staff. The personnel department will advise and assist managers in carrying out these tasks and in compiling formal training, as well as ensure health and safety training records for all employees are maintained.

QUALITY POLICY

QUALITY MANAGEMENT POLICY

Our vision is to be a trusted leader in providing innovative and reliable solutions across multiple industries. We believe that excellence is built on performance, integrity, and strong client relationships. We aim to be:

- A regionally recognized company committed to delivering high-quality solutions with exceptional service.
- A firm dedicated to sustainable growth, driven by a skilled and loyal team, utilizing cutting-edge technology and industry-best practices.

COMMITMENT

We are a dedicated team of professionals who are committed to:

- Giving excellent, professional service to our clients,
- Maintaining high ethical and business standards,
- Developing the professional and technical skills of our staff so that our clients are assured of the most up-to-date "best practice" construction service with innovative approaches,
- Helping our clients to clearly understand the construction process, and
- Compliance with all relevant legislative and regulatory requirements.

OUR QUALITY OBJECTIVES ARE TO

- Meet our contractual obligations with a view to achieving client satisfaction, reputation enhancement and repeat business through the effective application of the Company's Management System;
- Implement and maintain a Quality System based on **AS/NZS ISO 9001:2008**;
- Ensure that employees and sub-contractors are trained, skilled, competent, licensed and certified as appropriate for the task they are performing;
- Implement the Quality System to achieve project deliverables on time and within budget;
- Ensure that staff are kept abreast of changes in relevant standards, legislation and industry developments;
- Audit the Quality System and review our performance and assess feedback from clients, with a view to continual improvement.

All **EIT** staff are responsible for the communication, enthusiastic promotion and implementation of the policy. All staffs are accountable to the director and quality manager for the achievement of the quality outcome with the accordance with this policy. The director accepts responsibility and accountability for the Quality Management System provided by the Company.

OUR SERVICES

01

INFORMATION NETWORK INFRASTRUCTURE

Reliable Connectivity – Ensuring seamless and high-speed communication.

Scalability – Flexible networks that grow with business needs.

Advanced Security – Protecting data with robust cybersecurity measures.

Structured Cabling – Efficient and organized network cabling solutions.

Wireless & Cloud Integration – Enabling mobility and remote access.

Efficient Data Centers – Supporting business operations with high-capacity infrastructure.

Regulatory Compliance – Adhering to industry standards and best practices.

OUR SERVICES

02

SYSTEM INFRASTRUCTURE

Robust Architecture – Designing stable and high-performance IT systems.

Scalability – Flexible solutions that adapt to business growth.

Security & Compliance – Ensuring data protection and regulatory adherence.

Cloud Integration – Enabling seamless hybrid and cloud-based operations.

Optimized Performance – Enhancing efficiency with advanced system configurations.

Disaster Recovery – Implementing backup and recovery solutions for business continuity.

24/7 Support – Providing continuous monitoring and technical assistance.

OUR SERVICES

03

SECURITY

Advanced Threat Protection – Safeguarding systems from cyber threats and attacks.

Network Security – Implementing firewalls, encryption, and intrusion prevention.

Access Control – Ensuring only authorized personnel can access critical data.

Surveillance & Monitoring – 24/7 monitoring with CCTV and security systems.

Data Protection – Securing sensitive information with encryption and backup solutions.

Compliance & Risk Management – Adhering to industry regulations and minimizing security risks.

Incident Response – Rapid detection and mitigation of security breaches.

OUR SERVICES

04

DATA CENTRE

High Availability – Ensuring uninterrupted operations with redundant systems.

Scalability – Flexible infrastructure to support business growth.

Advanced Security – Multi-layered protection for data and network security.

Efficient Cooling Systems – Optimized temperature control for maximum performance.

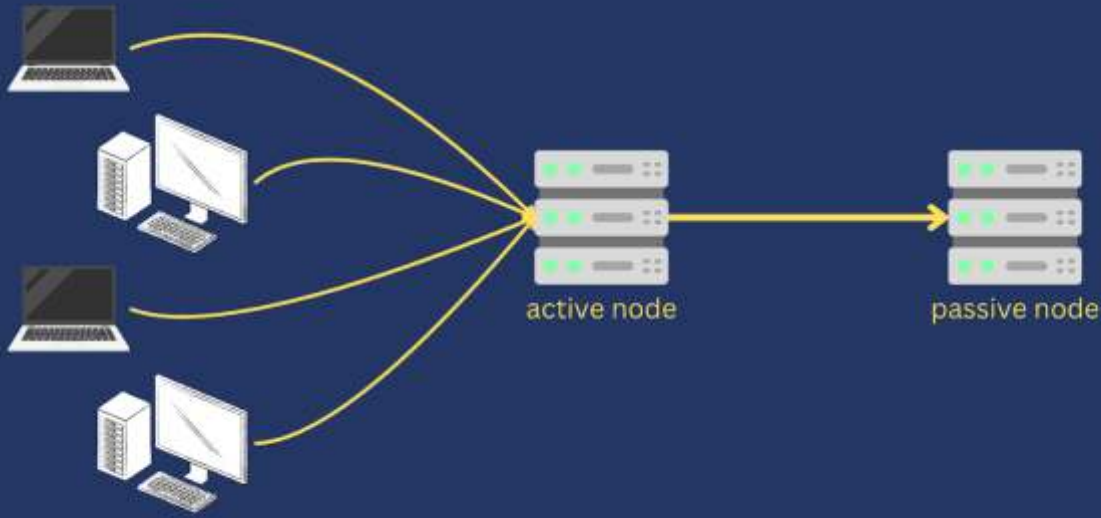

Disaster Recovery – Backup and recovery solutions for business continuity.

Energy Efficiency – Sustainable power management for cost-effective operations.

24/7 Monitoring – Continuous surveillance and real-time performance tracking.

Active-Passive High Availability Cluster

OUR SERVICES

05

ACTIVE CONFIGURATION

- Optimized Network Performance** – Ensuring seamless and efficient system operations.
- Real-Time Monitoring** – Continuous tracking and management of network configurations.
- Automated Updates** – Implementing the latest firmware and security patches.
- Customizable Settings** – Tailored configurations to meet specific business needs.
- Fault Detection & Prevention** – Proactive identification and resolution of issues.
- Secure Access Control** – Managing user permissions and authentication protocols.
- Compliance & Best Practices** – Aligning configurations with industry standards.

Components of Active Configuration

OUR SERVICES

06

LOW CURRENT SYSTEMS

Integrated Solutions – Seamless integration of security, communication, and automation systems.

Energy Efficiency – Low power consumption for cost-effective operations.

Advanced Security – Fire alarms, CCTV, and access control for enhanced safety.

Structured Cabling – Reliable and organized infrastructure for optimal performance.

Building Automation – Smart control of lighting, HVAC, and other systems.

Scalability – Flexible solutions adaptable to future expansions.

Regulatory Compliance – Adhering to industry standards and safety protocols.

OUR SERVICES

07

CIVIL STRUCTURE WORKS

Robust Construction – Delivering durable and high-quality structural solutions.

Precision Engineering – Ensuring accuracy and efficiency in every project.

Sustainable Practices – Using eco-friendly materials and methods.

Foundation & Framework – Strong and stable structural foundations.

Custom Design Solutions – Tailored construction to meet specific project needs.

Safety & Compliance – Adhering to industry regulations and safety standards.

Timely Execution – Efficient project management for on-time completion.

OUR SERVICES

08

STEEL STRUCTURE WORKS

Durable & High-Strength Designs – Ensuring long-lasting and resilient structures.

Precision Engineering – Fabricated with accuracy for optimal performance.

Lightweight & Versatile – Suitable for various industrial and commercial applications.

Corrosion Resistance – Using high-quality materials for longevity.

Custom Fabrication – Tailored solutions to meet project requirements.

Fast & Efficient Installation – Reducing project timelines with streamlined processes.

Safety & Compliance – Meeting industry standards and structural safety regulations.

OUR SERVICES

09

ELECTRICAL WORKS

Comprehensive Solutions – Covering installation, maintenance, and upgrades.

Energy Efficiency – Implementing cost-effective and sustainable electrical systems.

Advanced Safety Standards – Ensuring compliance with electrical codes and regulations.

High-Quality Components – Using durable materials for long-lasting performance.

Power Distribution Systems – Efficiently managing electrical load and supply.

Automation & Smart Control – Integrating modern technology for enhanced efficiency.

Reliable Maintenance & Support – Providing ongoing inspection and troubleshooting services.

OUR SERVICES

10

MEP PIPE WORKS

Comprehensive Solutions – Covering mechanical, electrical, and plumbing piping systems.

High-Quality Materials – Using durable and corrosion-resistant pipes for longevity.

Precision Installation – Ensuring accurate alignment and leak-proof connections.

Energy Efficiency – Optimized systems for reduced energy and water consumption.

Compliance & Safety – Adhering to industry regulations and safety standards.

Custom Design & Fabrication – Tailored solutions to meet project-specific needs.

Regular Maintenance & Support – Providing inspections and preventive maintenance for system reliability.

OUR SERVICES

11

PORTABLE CABIN FABRICATION WORK

Custom Design Solutions – Tailored cabins to meet specific client requirements.

Durable & Weather-Resistant – Built with high-quality materials for longevity.

Quick & Efficient Assembly – Fast fabrication and easy installation.

Energy-Efficient Structures – Optimized insulation for temperature control.

Lightweight & Portable – Easy to transport and relocate as needed.

Multi-Purpose Use – Suitable for offices, accommodations, storage, and more.

Compliance & Safety Standards – Meeting industry regulations for structural integrity and safety.

LEGAL DOCUMENTS

EIT ensures full compliance with legal and regulatory requirements by maintaining accurate and well-structured documentation. Our legal documents serve as the foundation for transparent operations, safeguarding business interests and ensuring adherence to industry standards.

Leviton Authorized Network Integrator Certification

Elite Infotech

has met Leviton Certification Program criteria and has successfully completed all required training and qualification activities. Therefore, Elite Infotech is hereby certified as a Leviton Authorized Network Integrator. Installations performed by Elite Infotech that are compliant with TIA/EIA and/or ISO requirements are eligible to receive a Leviton Limited 25-Year System Warranty.

Elite Infotech has agreed to conform to all Leviton, TIA/EIA, and/or ISO compliant installation practices in force at the time of installation. In addition, Elite Infotech agrees to install Leviton approved products and category compliant cabling in compliance with program policies and related industry standards. TIA/568 Series and ISO standards compliant links and channels are covered under the Leviton Limited 25-Year System Warranty when installed by Authorized Network Integrators.

Elite Infotech agrees to adhere to the terms and conditions of the Leviton Certification Program, and the terms and conditions of the Leviton Limited 25-Year System Warranty for the duration of their participation in the program. In no event shall Leviton be liable for special, indirect, incidental, consequential, or punitive damages (regardless of the form of action, whether in contract or in tort, including negligence, gross negligence, and strict liability). This includes, without limitation, lost profits or revenue; loss of data, technology, rights, or services; interruption of business; costs of procurement of substitute products; or other economic damage arising from the failure of a system installed by a Leviton Authorized Network Integrator.
